

Operational Update

28 June 2023

Overall Operational Status	
<p>Key points: Container terminal yard utilisation is 65% today.</p> <p>Vessel operations in the terminal continue to suffer minor delays due to the infrastructure works being undertaken thereby reducing us to a 2-berth operation and ongoing high levels of staff absenteeism due to winter illnesses.</p> <p>The infrastructure works will continue until end September and as for labour capacity this will remain variable until such time, illness count reduces. We are doing our best to manage to berth windows and ensure we maximise the flow of containers through the Port.</p> <p>Please continue to monitor POAL Website for vessel movements and cargo receipt windows.</p>
