

Operational Update

12 July 2023

Overall Operational Status	
<p>Key points: Container terminal yard utilisation is 80% today.</p> <p>Terminal operations continue to be affected by the infrastructure works which will continue through until end September.</p> <p>The impact remains constrained ship exchange sizes and some delays to berth windows. Labour capacity remains tight due to unplanned absenteeism and ongoing weather events are constraining operations, however we are continuing to manage ships to their windows and doing all possible to ensure departure on window.</p> <p>With this week being a short working week, Matariki Day on Friday 14th July, we expect the yard to be heavily congested over the weekend leading into next week. Please be mindful when planning drop offs or collections.</p> <p>Please continue to monitor POAL Website for vessel movements and cargo receipt windows.</p>
