

Operational Update

26 July 2023

<p>Overall Operational Status</p>	
<p>Key points: Container terminal yard utilisation is 93% today.</p> <p>Terminal operations continue to be affected by the infrastructure works resulting, ‘on window’ vessels being delayed in both berthing and sailing. This is due to Terminal operations restricted to 2 working berths and the back-to-back nature of demand.</p> <p>We have commenced the 2nd phase of the works and so vessel operations are restricted to FN or FZ berths only. The project remains on track for completion late September.</p> <p>We are continuing to evaluate ways in which we can open up access to the berth sooner than later but until then, there might be a few days delay to some services, especially from Friday through to Monday’s when we have our heaviest demand.</p> <p>Please continue to monitor POAL Website for vessel movements and cargo receipt windows.</p>
