

Operational Update

10 January 2024

<p>Overall Operational Status</p>	
<p>Key points: Happy New Year to everyone!</p> <p>Container terminal yard utilisation is 73% today.</p> <p>Terminal operations running well, however berth windows significantly affected by delays to vessels offshore including the ongoing industrial dispute in Australia between DP World/MUA.</p> <p>We are seeing an increasing number of vessels losing days on their original ETA which adds pressure to the berth in Auckland because of the volatility in demand.</p> <p>We expect this situation to be ongoing for some weeks and are carefully watching the potential congestion build as we move towards Auckland Anniversary Day weekend (27-29/January) and Waitangi Day holiday on 6th February which will create 2 short working weeks to manage flow of containers through the Port and across the supply chain.</p> <p>Please continue to monitor POAL Website for vessel movements and cargo receipt windows.</p>
